

SprintAI

AI-Powered Backlog Intelligence for Product Teams

Seed Round | 2024

Presented by Sarah Jenkins, Founder & CEO

THE PROBLEM

Product Backlogs Are Broken

63%

of PMs spend 5+ hrs/week manually grooming backlogs

2.4x

more sprint failures traced to poor backlog hygiene

\$47K

average cost of misaligned roadmap per team per year

“

I spend more time organizing Jira than actually thinking about the product.

— Senior PM, Series B SaaS Company

THE SOLUTION

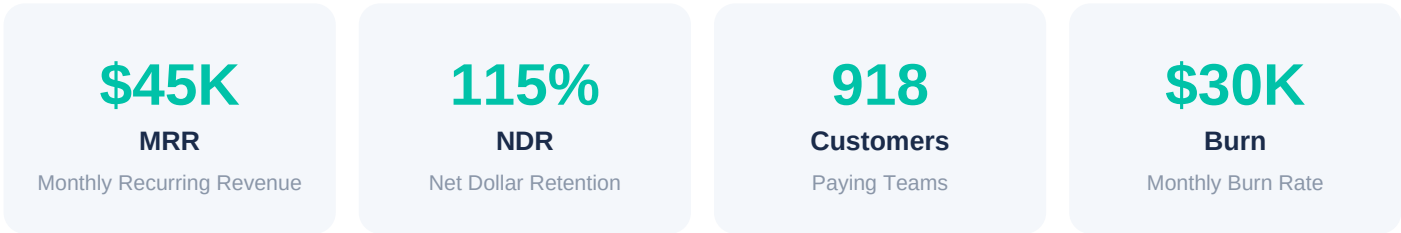

SprintAI: Your AI Backlog Co-Pilot

SprintAI connects to your Jira or Linear workspace and uses AI to:

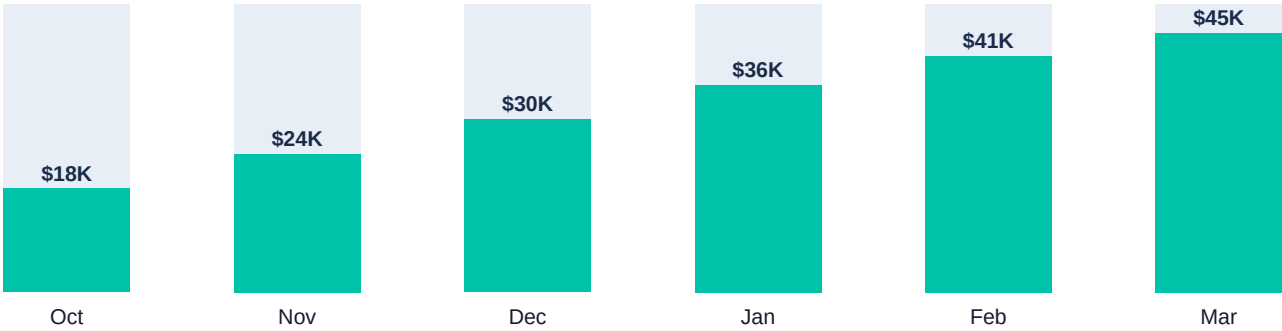

- Automatically prioritize and score backlog items based on business impact
- Surface stale, duplicate, or misaligned tickets in real time
- Generate sprint-ready summaries and acceptance criteria
- Predict sprint risk before planning begins
